

Environmental Policy

It is the policy of Fluor-B&W Portsmouth LLC (FBP) to conduct the Portsmouth Decommissioning & Decontamination and Environmental Remediation Project in a safe, compliant and cost-effective manner that protects human health and the environment. We achieve this by integrating environmental requirements and pollution prevention into our work planning and execution, and taking actions to minimize the environmental impacts of our operations. We establish and communicate environmental responsibilities, provide environmental training to our workforce, and implement controls to mitigate environmental hazards. Through employee involvement and management commitment to environmental excellence, we will:

- Identify and comply with all applicable environmental laws and regulations.
- Use all means practicable to minimize or eliminate any newly generated wastes. Whenever possible, newly generated wastes shall have a clear disposition path before they are generated.
- Protect the natural, biological and cultural resources impacted by FBP activities.
- Conserve natural resources by reusing and recycling materials, purchasing recycled materials, and using recyclable materials.
- Establish documented environmental objectives and targets and update them as necessary to reflect FBP's changing needs, missions, and goals.
- Consider the input of our stakeholders when weighing alternative courses of action.
- Measure our environmental performance, monitor our impact on the environment, and communicate the results to our employees, subcontractors, and stakeholders.
- Continuously improve our environmental management system through self-assessment and corrective action.
- Communicate this policy to all employees and subcontractors and make it available to the public and our stakeholders.

This policy applies to all persons working on behalf of the FBP Decommissioning & Decontamination and Environmental Remediation Project. Every employee and subcontractor is expected to follow this policy and to report environmental concerns to management. Managers shall promote environmental stewardship, take prompt action to address concerns and issues and have zero tolerance for noncompliance.

Woodrow "Jamie" Jameson,
FBP Program Manager
