

Clean Up Progress

- The X-326 Process Building was demolished and the last load out of debris was taken to the OSWDF on August 24, 2023.

- The X-333 is the next large process building to be taken down starting in 2025. The X-333 is the largest of the three process buildings with 66 acres of floor space under roof.

- The first three cells of the OSWDF have been constructed and in operations.

- OSWDF CAP 2 construction including three new cells is currently taking place.

Site upgrades for future development

- Modernizing incoming power supply
- Upgrading high pressure fire water system
