

U.S. DEPARTMENT OF ENERGY

VIRTUAL MUSEUM

Capturing the History of the Plant

The Virtual Museum project is under way, preserving the history of the plant in a web-based platform for public access.

The site currently includes:

- Information
- Data
- Images
- Films
- Videos
- Oral Histories
- Newsletter Archive

More will be added to the website on a continuing basis to ensure that the rich history of the site will be shared with generations to come.
