

Major Projects at PORTS

X-333 D&D *(Decontamination & Decommissioning)*

Target: Deactivation complete in 2021

The **X-333** is the largest of the three process buildings with **66 acres** of floor space under roof.

The **X-333 Process Building** contains the largest of the process gas equipment including the massive '000' converters that weigh as much as **66,000 pounds**.

The X-333 **Material Sizing Area (MSA)** has reached steady-state operations of large component disassembly for safe placement into the OSWDF currently under construction.

To ensure worker safety in the **X-333**, robotic technology will be used to size reduce large components.
